OWNER : APPLE CREEK FARMS

HORSE : XENA

11/15/23 – A physical exam was performed on an approximate 8 year old Black Friesian mare. She was found to be in overall good health. Her body condition was good. She was found to have normal heart and lung sounds. She had a resting heart rate of 34 BPM and a respiratory rate of 18. There were no heart murmurs detected. All lung fields were found to be normal with good air movement on both sides. Eyes were normal on gross examination. Temperature was 100.1 F. Her gums were pink with a normal refill time of less than 2 seconds. She had a normal hair coat. She appeared neurologically normal. She was sound at the walk and trot, no flexions were performed.

A handwritten signature in cursive script, appearing to read "Donald L. Yorlets".
