To Whom it May Concern

This Letter is in regards to Callie a 6 year old spotted saddle horse mare. I examined Callie and my findings are as follows. Temp 98.7 heart and lungs normal eyes clear teeth normal. I observed no swellings in her legs and no signs of lameness. She appeared normal with no signs of illness. In my opinion Callie is fit for work.

This is in no way a guarantee of any kind . These are my findings on this day. The future owner should get with their veterinarian to formulate a health plan for Callie.

If you have any questions regarding this report feel free to contact me.

Sincerely

Nick L. Mason DVM
