Horse: Taco Tuesday/Spotted Saddle Horse/Gelding
DOB: July 2023
DVM: Dr. Selina Boone, DVM

To whom it may concern,

Today, I, Selina Boone performed an exam on Taco Tuesday, a 3 year old Spotted Saddle gelding in preparation for sale.

Heart rate, respiration rate and effort, lung sounds, and gut mobility were all normal. No fever detected. He is visually and neurologically appropriate. One scar is appreciated on the caudal aspect of his front left leg at the heel bulb obtained from a previous healed injury.

On mobility and soundness examination (walk, trot, run, tight circles, and stops) no lameness was appreciated. He appears to be soundand ready for sale as of this date of examination on October 6, 2026.

Sincerely,

Dr. Selina Boone, DVM
